

Who am I? you asked of yourself long ago. How did I get here? Where is this world headed? You already know the answers to the first two questions; **what about that last one?** I have some unique answers for you to explore provided you set aside some longheld prejudices for the duration spent reading this document. **You will be surprised at what I have to tell.**

You are under-educated. How I know that? When someone mentions a phrase from the Bible such as "End Times", what do you do? How about "Last Days" or Armageddon? Chances are no one ever mentioned these Bible terms to you so your immediate reaction is your hearing shuts down. **It becomes a rather automatic response.** Why is that? Words cannot harm you. Words can insult you, or in this case the fact that you lack some understanding or knowledge makes you feel ignorant... so to avoid feeling ignorant you have developed this automatic response to stay away from anyone who says anything about the Bible.

It becomes your "defense mechanism" to avoid feeling inadequate and awkward in anything resembling a Bible discussion. Well, friend, I am going to bring you up to speed a bit with this document and a suggestion to read a paperback now being distributed worldwide. You can learn from my experiences and collation of ideas, all without a single person knowing you did it, so that **the next time someone brings up the subject you will be fearless.**

I am going to start off writing about my real-time experiences with death (a few of them, not all). And this document, by the way, has nothing to do with whining, moaning or complaining about "my lot in life". I will write and you will read so that you can educate yourself in the privacy of your computer room, no one around to laugh about you not knowing something or noticing you are dyslexic and have been hiding it all your life.

This document will introduce a few concepts you have never heard before nor will you ever read in any other world wide websites or Wikipedia articles. It is true that perhaps I would reach many more people with this important information about where this world is headed if I was to make a youtube video but no, **I will not do that because what I have is not a carnival act.** Most people familiar with my writings know they start out slow and build up to striking conclusions and crescendos, so gird up your loins (Bible expression) and don't stop reading til you finish. **I go beyond Steven Spielberg and Farscape; I go all the way to real:**

Today is June 20 2008, the beginning of our North American summer. Two weeks from today ~to the day~ is July 04, 2008. One very old Bible account is where Joshua leader of the Israelites has trumpeters walk in formation around the walls of their enemy boarded up inside the walls of Jericho. Their instructions were to blow on their horns for 7 days, after which they would see the defeat of their enemy. After 7 days the walls of Jericho crumbled, falling all over the city's inhabitants.

Of course to many this sounds like a right fanciful story for today's hopeful assortment of End Time-believing Christians. This morning I awoke and came up with a rather inspired idea to write this document. After writing the majority of it, it occurred to me to look at the calendar, as some of my past pages that I wrote have later turned out to have somehow coincided with important times and Dates... such as my page <http://www.askinventor.com/> that after saving it I looked at the Date 6/11/2008 8:08 am. 4 eights. Hmm, that never happens. **Perhaps you should read that page and every link on it.**

14 days til America's July 4th 2008 Independence Day holiday? **Twice the time Joshua's men marched around Jericho?** Hmm. Surely not, no way! See what you think then; let's begin this walkabout:

I have died many times in my life. My thoughts ceased or breathing stopped and a few of those times my heart stopped beating as I breathed out my last breath, waiting for full death. I doubt anyone has ever told you what it is like to be so sick you actually died, so I am going to do that. Your mind gets really sharp and you start seeing things much more clearly than you ever could before ~**sometimes**~ while other times you get dense as a doorknob too.

On your worse days you learn to take it easy, conserve and do very little; but on those days where energy returns you learn to do more, sometimes even run like a racehorse, knowing tomorrow or the entire next week you might revert back unable to walk, life returning to a literal crawl at times. Ever crawl on the floor to get to the washroom? I have done that a few times. The first time, my back had gone out in 1979. The words "**you're all alone, Wales**" from Clint Eastwood's Outlaw Josey Wales are words I have felt many times too. It's just you and the floor, and if you are fortunate, God.

Truck drivers have many accidents while no one is around, like riding on a barge of death sometimes. I was not dying then but just used that as an early example to establish that my poor health and physical trials began a great time ago (this example from when I broke my fall from a barrel landing on a flower bed border board when I was 11 years old, maybe 12; a long time ago not just yesterday). I was surprised this year by being gassed near to death in my own apartment, putting me into severe cardiac distress on May 2. I should have suspected the gradual poisoning, but the problem with being poisoned is that your ability to process information goes sour from the altered oxygen state.

I had begun to taste the air during February and March and it tasted mighty good. No time before in my life **had I ever actually tasted the goodness of air**, but did not make the connection I should have that maybe I was being deprived of it. After all, what in my apartment could possibly be displacing the air I recall wondering? So a good lesson here for you is that if you should ever start tasting the air like it is some fine French or Californian wine you are likely getting a touch of holocaust gassing for yourself.

**(Check your car's muffler by stuffing a rag in the tailpipe while)
(the engine is running. If it is not blown out, there's your leak.)**

Last year in 2007 I had felt my heart stop but it did not stop overly long, just long enough to make a note of it and then it started back beating. I thought it was a one-time fluke. But this Spring ~again~ a much worse and longer stoppage, sometime in early February 2008. It happened after I had had the 3 anginas at weekly intervals weeks before in January. **I got so incredibly exhausted I had to lay down.**

My heart had stopped and stayed stopped |stop|. Many people would have got worried but these things have happened to me so much I just relaxed to see the outcome. You have no idea how peaceful it was. Your last remaining period of life minus the crash-banging of your circulatory system allows your mental faculties to achieve full depth of thought minus the bumper cars. Then I breathed out what I thought to be my last remaining air and closed my eyes for the trip down the river -much like that barge Eastwood shot loose- when a sudden raw power surged through my being all at once.

Not like it started in my toes and went up to my head; no, **it was like every cell in your body is switched on all at the exact same time.** I literally sprang up off the bed, went to my computer and began writing things down, stuff that has now been online since that fatefully important date of February 20 2008, and I kept writing for **8 more straight hours as if I had pole-vaulted out of my grave and went on to win the decathlon.** I had completely died physically, not yet in brain death, a full body death though... but this time **bam** I was bolted out of the starting gates running faster than the horses at Pimlico.

**A similar experience like this was related in the Bible
a long time ago. A prophet named Elijah from the
account at 18th chapter of 1 Kings 18:42 =>**

And Elijah went up to the top of Carmel; and he bowed himself down upon the earth, and put his face between his knees.

[18:43](#) And he said to his servant, Go up now, look toward the sea. And he went up, and looked, and said, There is nothing. And Elijah said, Go again seven times.

[18:44](#) And it came to pass at the seventh time that the servant said, Behold, there ariseth a cloud out of the sea, as small as a man's hand. And he said, Go up, say unto Ahab, Make ready thy chariot, and get thee down, that the rain stop thee not.

[18:45](#) And it came to pass in a little while, that the heavens grew black with clouds and wind, and there was a great rain. And Ahab rode [staying dry] to Jezreel:

[18:46](#) and the hand of Jehovah was on Elijah; and he girded up his loins, and ran before Ahab to the entrance of Jezreel.

{Jehovah is one of the accepted English spellings for the Almighty in the Bible.}

Elijah had instructed Ahab to hurriedly get on his horse drawn chariot and ride ahead of the rain, a nice thing to tell him to do for sure, but then "the hand of Jehovah was on Elijah" (**which Elijah had no way of knowing was going to happen**) and with Jehovah's power ~legs pumping with holy spirit~ Elijah went running past the horses!

Well, that's what happened to me and let me tell you one thing for certain that when a dying man **jumps off the bed and starts outrunning horses** you know the palmed hand of God has you. The rest of my testimonies about my experiences with poor health, fighting Lyme's and cancer without medical assistance and winning, all falls under much the same tent. I watered (with nutrition products) but it was God who kept making it grow (another Bible expression) because I was filled with Faith in whatever the final decision towards me would be.

**When the Almighty has something He wants
done and you just do not have it in
you to do, He puts it in you.**

In that way I have lived for over 8 years now ~since 2000 when I had 3 heart seizures~ by being grabbed and energized to keep breathing, my heart at numerous times to be kept beating, so I could keep writing about my new engine systems I was understanding more & more to make and the ones I was yet to design even into 2008.

The system I came up with in November 2000, a month before the biggest heart seizure happened for that year requiring me to lie perfectly still a full 3 day's without eating (to reduce the load on my heart), the invention that "hit me" in my trailer hallway was the new windmill design I would later call my "[Wind Engine](#)".

This design ~fully protected numerous ways to discourage theft before I ever placed it online 28 months later on March 10 2003~ was subsequently "appropriated" by another inventor named Robert Hunt, albeit with a very small alteration but still obvious to be from my design. **Now here's the**

problem: he thinks he just took it from my hand but what he really did was take it from the hand of someone in the process of doing God's Will.

I was beginning my 30 mile "run to Jezreel" like Elijah had done before me... and this man took my property (as have a few others). **Does that automatically mean he has committed an evil act?** That is for him and his lawyers to decide. I am willing to cut the man some slack but **I am not the One who will judge him** when he dies and faces his Maker <> God does that.

My Wind Engine was an engine of Peace, intended to be used to harness low windspeed winds all over the World **giving destitute people electric service in places where there is none today**. So if Mr. Hunt had taken my Wind Engine and gotten it out into those poor people's energy-deprived hands, it could be argued he had taken my wind engine like a runner's baton and helped me do the job Jehovah God had given me the wherewithal to invent for the world's poor and starving to enjoy a wealth of natural electricity.

Instead, what he did with it was provide electric power to a gigantic troop transport plane system that can also carry megatonnage worth of military weapons for an extremely little amount of onboard fuel to any warzone in the world, vastly expanding the military might ~and newfound mission accomplished aggressions~ of the United States government under George Walker Bush.

I personally would not want to be Robert Hunt, for one day his vicious application of my God-honoring Wind Engine into being a military-empowering super-aggression instrument of war will be called to his account by the God and Creator Jehovah, who about now is frowning on the United States for this misapplication of a peaceful invention that would have brought **great peace to this world's peoples of all Races and skin colors and national groups**.

His act, delivering this level of increased genocide power by supersized munitions payloads to be transported any place in the world, is a racial act of hatred against his fellow man and woman and their children **who can now be much more easily slaughtered under US military discretion any time they want** by a plane utilizing my system invented **#1** under God's direction and **#2** with God's power and Jesus' blessing help keeping me alive, who may be a prophet approved of God.

You have walked across the bridge to steal the holy grail.

I wouldn't be you for nuthin'; no amount of monies.

You have gone another 30 pieces of silver.

Plan to do that with my other engines I released?

**** conclusions to draw ****

For starters you are probably wanting to think I (Woodrow Riley, author of this document and JW inventor) have decided I am a reincarnation of Elijah. **Nope.** Elijah is in the grave awaiting a systematic and very methodical resurrection back to life (a Bible promise repeated many times) on the other side of a fast-approaching world shakeup called Armageddon.

Another would be that I am saying this coming July 04 2008 that God is going to start either the "great tribulation" or a fullblown Armageddon at the end of a 14-day elapsed time since writing this document on the first day of summer. **Nope. I did not say that.** What **is** obvious is that the more people who take and use my inventions -because they pay for lawyers or have the military helping them- **are putting themselves in danger with God**, which is why I named this pdf document a warning not a threat.

I am no threat, but the Bible record is replete with previous examples where someone chose to increase a prophet's afflictions, such as depriving them of necessities, that brought God's Wrath upon themselves. That's the threat they face and it is "my job" as a Christian to tell people when their actions are putting them in line for an angel's spear.

hahahaha

I can hear you guys laughing.

[Try laughing at the rest of what I have to write.](#)

Under what I felt to be God's direction, I released three engine systems => The first was for getting half this [nation's electricity from lightning](#) (April-May 1989). The 2nd was an [engine that makes Real-Time power](#) instead of using stored power like that contained in fossil fuels or batteries (June 2003). It engages [the forces of both gravity and inertia-on-movement](#) to recompress the air, then combines it with flash-steamed H2O (water). And 3rd out of the earlier engines came the [Millenial Dawn engine](#) (February 15 2005, released 9 months later (as I later noticed it had so turned out) on November 14 2005 post-Katrina).

Jehovah wanted me to give this country a chance to handle his marvelous Creation-level energies in peaceful ways. They failed on the first one, the Wind Engine I wrote about above (2000). Several years ago I came up with a "See Through Wall, hoping to capitalize on it to obtain the funds to build some of my engines. So I submitted the idea to an invention submission company. A year later I saw it on a television invention show being developed, yep, by the military... and not a dime in compensation coming.

Still wanting to laugh at the "plight" you think I am whining

about as many have done these past 5 years?

The plight is also yours:

I know how to make a system for powering your homes with Gravity, another for Solar that works like a particle accelerator, two new kinds of windmills and a supersolar system for moving vast amounts of water inland to irrigate the world's deserts into a paradise (or move flood waters away quickly)... that also does some other things I choose not to mention. **Are you getting them? No?** Keep reading.

I deciphered how Nikolai Tesla envisioned a personal vehicle that flies all over the country using a real-time natural fuel (not fuelless, how ludicrous). I also know how to make a totally different system from Tesla's, both his and mine giving you the "flying car" that was promised you 50+ years ago you still hmm lack... **which btw both of these systems put the snap in travel time to Mars.**

None of which can be released because they would all be stolen oops appropriated like my other systems to be used conducting genocidal wars and exterminate Races off this planet like a hell on earth you never dreamed could happen much less in our lifetime. Just in case you missed the **White House announcement, they have re-started the Cold War.** So the people who like to imagine they have "won" over me by various underhanded slick legal loopholes and deeds, especially any of them who think they have harmed me by keeping me riding the back seat on the bus farther back than Rosa Parks, are only painting bull's eyes for the angels on their chests and back.

which was my job, to help gather them
to be separated as it says in Matthew 25 =>

[25:31](#) But when the Son of man shall come in his glory, and all the angels with him, then shall he sit on the throne of his glory:

[25:32](#) and before him shall be gathered all the nations: and he shall separate them one from another, as the shepherd separateth the sheep from the goats;

[25:33](#) and he shall set the sheep on his right hand, but the goats on the left.

As the old soldier said in Indiana Jones => **choose the cup you drink from wisely.** The line ahead is for some of us a life goal to be made; for others it will soon be their finish line. And perchance my knowledge and conclusions are flawed?, that this coming 07|04|2008 nothing at all happens? I did not say that it would, but...

Something is happening => trumpets are blaring.

Just as they blared a triple loud sound on February 20 2008.

We either get saved by God's war or dead by the coming Cold War.

**** Now you are educated more to my level ****

However, I always try to be thorough and pick up any loose strings not fully explained previously. On the "fatefully important" day of [February 20 2008 there occurred three important signs worth noting](#). I suspect the majority of people still do not understand why that day was significant. What could have been such significance from a US missile launch taking out a falling satellite **plus** being set to intercept during a world class moon eclipse?

If you read up on it you will find the missiles were **#1** of a new design that reaches a highly accelerated new speed **@22,000+ miles per hour** that shocked world governments by that speed and accuracy (note the move of Russia to have wargames with China post-February 20 2008) and **#2** they chose to shoot down the satellite during a Moon eclipse for added effect (an insult aimed at Bible Prophecy, mocking God). Furthermore, they had at the last minutes in the afternoon **#3** postponed the launch to another time because of a lame excuse (cloud cover) which **#4** was an obvious attempt by Satan to **encourage me to stop writing that page and take a big rest I wanted sorely to take**, setting aside my document til another day **so he could steal the nighttime New Cold War show all to himself**.

I did not stop writing because Jehovah's spirit did not stop pushing me to write, so I put my page online that evening of the 20th right on time, providing a triple "signs in the heavens" that night and notice to Satan his time is near;
[+ the cancelled shutdown went on time](#)
a slick trick being pulled all along,
the lame threat of "clouds".

<>

<http://www.newpath4.com/2202008february20signsintheheavenspublicrecordopensourcepatentenginesystemforallhumankind.pdf>

Now you're up to speed what is coming down
the pike at you like a rocket with your name on it,
everything written in the Bible happening right on time.

And if nothing at all different happens on 7-04-2008?

That is not a problem and neither does it make me wrong. In fact, in Jewish history something similar happened before that same way as recorded in the Bible account of Mark 13:14 (below) and Josephus. Roman armies surrounded Jerusalem around 66 C.E. Jesus' followers had been told previously to get out of there, run into the hills of Judea before the war and the baby killing started but they were blocked by those armies. For some reason the Romans packed up and left, **allowing those who believed Jesus' words time to escape the city.** Mere months later those armies returned under a different general who then laid waste to the city and everyone inside her.

In much the same way as happened then I am telling you today with this document **~also in advance~** that when they saw armies standing in a holy place where they ought not be (standing on holy ground), so too that using my holy (natural physics) engines that be unholy stolen then converting them into military weapons systems instead of peaceful engines to aid the world's peoples as they were designed to do... that we of Mankind only have a short period of time to escape **i.e.** repent and beg Jehovah God (JHVH) for His protection and guidance to achieve His Protection. (You could pull the trick ancient Nineveh's people pulled, making Jonah's prophecy wrong and survive Armageddon.)

As the word from Mark 13:14 tells us:

[13:14](#) But when you see the abomination of desolation {mentioned by Daniel the prophet} standing where it ought not to be--[and] let the one who reads take notice {and} consider {and} understand {and} heed [this]--then let those who are in Judea flee to the mountains.

[We all live on borrowed time](#) borrowed from God.

However, I promised you above that I would "go beyond Steven Spielberg and Farscape science fiction". So far I have written lots of words, a few good links and more or less my own conclusions that you might still want to disregard as being great sci-fi writing. "Beyond Spielberg" comes when you get and read a paperback called "**What Does the Bible *Really* Teach?**" published by the [Watchtower Society](#), the legal corporation of Jehovah's Witnesses. Look up the scriptures cited in that paperback that are not in this simple document. **Verify for yourself what the Bible really says.**

Anybody asks you then, you won't have to squirm in their hotseat feeling ignorant. God bless your efforts and in the days to come.

WM Riley

Thanks for your time today, 06-20-2008...
