

Public Record Open Source Patent for 2-20-2008:

On Feb. 20 2008 there was a **#1** full lunar eclipse over North America.

That same date 2/20/2008 the United States **#2** launched [an intercept missile](#) for the purpose of obliterating a bus-size falling spy satellite. It was successful.

Now for the rest of the story #3:

On 1/26/2008 a file was written & placed online titled:
newpath4.com/hearttransplantfromworldzooanimalstockcarsraceatdawncomingsoon.pdf

On 2/20/2008 not one month later that promised deer-like vehicle engine system was freely explained:
newpath4.com/introducingthelivingenginesystem02202008.pdf

to be capable of:

1. 200 miles per gallon
2. 700 horsepower
3. 600 miles per hour

The design specifics are offered to the people-inhabitants of this world to build without patent protection as it is given "**open source**" freely. The reason for that is that the engine is designed after one of God's Creations, the deer (as well as other animals having a circulatory system), as all of them were brought into existence before Man was created.

The design belongs to all men, & women, and their children, their "**Energy Inheritance**" that had been lost and denied when the first man and woman (Adam & Eve) sinned by disobeying their Creator-God Jehovah. It is of rather important significance that the collection of legal documents we call "the Holy Bible" contains what we have all come to call "[prophecies](#)". Before God brings another "**end to wickedness on Earth**" ~as he did in the "Flood of Noah's day" as well as at Sodom and Gomorrhah~, one of these well-known prophecies states there will be "[signs in the heavens](#)". This "**Triple Event**" of **1.** full lunar eclipse + **2.** shooting down of a falling satellite with a superfast missile (kept secret and under wraps from the Public to make a surprise dark-of-night "Big Show" of military might ~**not unlike one of Kruschev's Moscow nuclear missile parades before JFK**~ by hitting two "bullets" together head-on at a combined approach to impact speed of @ 60,000 miles per hour) + **3.** the God-inspired release and **Internet launch of this patent-free Engine System design** based on the animal creation and deer circulatory system (long in existence before humankind took its first homo sapien breath)... is your decision to decide if this is a worthy-of-note possible fulfilling of the "[signs in the heavens](#)" prophecies. It works for me, but with the following reservation and qualification:

**Works for me but only as a part of the many signs given, not standalone.
See Matthew 24 + Luke 21 for more signs, [to be taken as a group.](#)**
