Subject:

Passive Genocide of Unwanted Cults, Blacks, Religious Group "Leaders" by the United States Government, a 17-Year Report from Woodrow Riley, independent inventor presently semi-active in the Jehovah's Witnesses faith (due to seriously bad health).

To: M. J. H. September 18 2006 regarding my doctor experience Friday last.

Thank you for the phone call just now. My computer was Off but I opened it back up special to write you back. My 28YO son William died of leukemia on June 15, 2006, and they said he had the worst form of leukemia a person can get. We don't take blood transfusions but even if William had, the nurse said it wouldn't have helped him.

My last 17 years have been a tough row to hoe. Last week I wrote a page that goes back and lays down what happened that caused me 17 year's worth of doctors not trying to improve my health much. Here's is the link >

<http://www.newpath4.com/gentrylockerakesmoorefeelstobeapersonalwhoreseptember11200609112001.htm> and I know that page has a somewhat abrasive & harsh entry title. I only wrote that way because it was the right word for what had been done to me, but more important was done to my entire family. **SEVENTEEN YEARS, WASTED** while the doctors here played my medical profile against me instead of looking at my medical history.

So during the last 4 months my right leg {calf muscle} that was smashed from behind in 1989 by a 1,000 lb. weight that dropped 8 feet, and during that time William having leukemia, I had reason to ask my doctor. And I did, several times, ask about my leg being excessively large and hard to the touch.

But I avoided telling him about William because you know, he has made this decision I'm some kind of nut case... So Myrna Jo, if I had told him about William he would have just jumped on that to say I was having sympathy swelling or something. He felt my facial bone and jaw, which was both swollen for a week but less the jaw til Friday, but when the jawbone swelled TOO plus the leg being swollen, I don't know I guess it was long about that time it was dawning on me... **William had 50% of my genes, which means I have 50% increased chance my leg swelling is the same thing killed him.**

Well, I sent him a short fax, plus called left a message. Apparently my new doctor the periodontist had told him something I wrote him in an e-mail. Hahahaha I knew the possibility existed that would happen when I sent the e-mail, and it didn't much matter. I've already decided many months ago my doctor doesn't see anything when I see him. I've had to beg for help from him.

But you asked why I stay with him. Well, his co-doctors at the clinic has antibioticed me twice this year separate times when I was in crisis. Once when my lungs filled with fluid suddenly 7+ months ago {Dr. Malenchak} and then I got an infection in my skin -and near the thyroid {Dr. Whitney}- so it isn't like the clinic is a total wipeout, just him. And they don't have space to take me as one of their patients.

So I was kind of hanging with him I guess. He spent the better part of 15 minutes, 12 minutes longer than he usually allows me {the “nutcase” right?}, riding me, interrogating, pushing every male button he could. Now get this Myrna! He knows I take Diovan because he diagnosed me to have unusually narrowed arteries, so I'm hypertensive. I have been diagnosed long ago to be bipolar.

This doctor is such an idiot sitting close beside me -the size and strength of many football players- riding me hard, trying to get me to do or say something. He made me want to snap his neck but I restrained, answered his questions even though I knew he didn't care. When I would answer, in his eyes you could see the hate spewing around like acid forming his next question, not listening to my answers.

It went like that for 15 minutes. That was Friday and I'm still shook up from the experience. All he accomplished was making me feel like suicide, which I decided long ago I would never do. My Dad committed suicide twice, finally hurting his health so much he died at 55. I'm 54, and for all the nutrition products I take I wonder -with all this fluid gushing from my swollen neck gland- if I'll last much longer than Dad did.

Yes, Myrna Jo, I hope your new husband appreciates your angel quality. Yesterday I had a dream that I saw this round green bright shiny doorway. I've always pooh-poohed people saying they saw a light in a tunnel. Well, my doctor plus these infections, I saw it yesterday. Then I woke up.

I worked out with weights today. Yeah, I'm still trying to gain muscle lose the fat. So I tired myself out and took a nap. My neck [thyroid} doesn't feel great. I'm almost back where I was when Dr. Whitney gave me the antibiotic a couple months ago. I told him I couldn't feel my neck & he had told me that was the infection doing a number on the neck nerves.

You probably know all this but it was news to me. So today my neck is feeling like that again. And my periodontist I just signed on with, he was checking me for abnormally BRIGHT reddened gums above my front uppers. He said it doesn't look to be gingivitis, and didn't rightly know WHAT IT WAS, so he gave me dexamethasone to try. It has helped my ankle & foot, so I checked it on several websites and NIH site, and Lo & Behold says it's for thyroid cancer treatment sometimes as well as arthritis. So here I've had THYROID DISEASE my entire life and this Doctor Kellam is riding me, treating my physical symptoms like I'm a hypochondriac.

I'm still shaken. Thyroid disease has weakened me from my younger days so I get shaken up more easily. So when you called me just now what a beautiful sound I heard. A caring friendly voice. **Tell you what I've decided Myrna Jo, and this only after a year of this doctor's “help”, is that he is trying to commit “passive genocide” against me.** I don't know how else to explain him and his attitude, that for him knowing he has me on this powerful ANTI-HYPERTENSIVE MEDICATION, the Diovan, and knowing I have the bipolar gene, **I think he may have been trying to push me to off him so his kids would have the insurance money for college.**

He really worked me over Friday. And after his claiming he felt no swelling of my jaw, which was apparently part of the head number he was doing on me to push me over the

edge, I get home and eat a bite. Halfway through my sandwich the entire area and gland as I told you, blew up like a small BALLOON!!!

So I'm sitting there staring at the tube, in disgust over the whole situation, I rested my jaw a moment in my palm, and the fluid gushed from the gland into my mouth. I've been kind of a wreck. Actually all the swelling, bright gums, dexamethasone, weird feeling in my face, knowing my Mom and two aunts had died from cancer, then William died from cancer, and then this jerk tried to provoke me to attack him.

Well, I asked him about seeing a shrink cause I knew that would help doctor to quiet down, but I also felt if I asked for a shrink referral he would be much more inclined to give in, give me the fluid pill I knew I was needing! It worked. He issued the prescription for furosemide. Isn't that strange, to have to outbrain your doctor to get the med he should already have known I needed. hahaha

Actually he isn't the first doctor like this, but he's the first to provoke me. But you see, Myrna Jo, there's people who want me to do that. They want me to chase down prostitutes or attack a "fine" doctor, so they can discredit my website work www.newpath4.com. And I was determined not to give them that.

Well, you had to be there. If I had had a spy camera & mike going I'd be putting it online and send you the link, but I don't so I couldn't. The verbal/mental assault he put me through upset me even up into today. I messed up Randy's and mine supper but it wasn't so bad so we ate it anyway. I'm going to make that shrink appointment too. I want to tell someone to their face how this doctor verbally assaulted me knowing how sick I am inside.

I made it to religious services yesterday, but between my rattled psyche, the numbness of my upper gums, I heard about half of the friend's comments. We had a good Meeting tho and I picked up a few points in the process. I just had to concentrate.

Well, one of the sisters must have felt I needed a hug so I got one good hug yesterday. She is a cancer survivor and spent much time with William while he was in the hospital. Since Dr. Whitney had issued me an antibiotic I was barred from the ward til right before he passed away. I saw him before and at the last.

Now here I am, a leg swollen, and the ONLY way I can get an audience with a cancer doctor to check it is if this man, Dr. Kellam, gives me a referral. Otherwise they will not see me. I know because I tried years ago to get two of Mom's cancer doctors at Lewis-Gale Hospital to check me, because I knew then that surrounded with so many close family member's cancer deaths has had me for many years an increased risk for cancers.

And I had symptoms of precancerous rectal inflammation at the time. Since I've been using the Ionized Silver it has settled down. I know I must be staving off the cancer. I suspect with the way my face feels it may be in the bones. The fluid episode last Friday doesn't look very good.

What is the definition of "Passive Genocide"? It's where a doctor stands by refusing treatment of a sick patient & does not treat you for life threatening illness that takes you out. That's my phrase, my definition.

Why? Well, that's unknown but there is a possibility the government is somewhere close by. They're all upset about my claiming my wonderful new non-combustion powerhouse engines are "God's Engines". One uses steam and cold liquid compressed air for a Climate Engine explosion without any pollutions exhausted. Enginewow was what I called it when I invented it.

Then I made the 2nd engine after-&-from enginewow that's like a pinball machine. <http://www.newpath4.com/millenialdawnpowerandlightsecure21.htm> is where that one is explained. It makes home electricity without any fuel and will power a spaceship or electricity a Moon/Mars apartment. Last year also I released a device {Fountain of Youth Temperature Oscillation} that will keep people exercised all through their physical body from shivering, even during weightlessness during Space travels. The system expands & contracts the fluids inside each of our cells.

Yeah, Somebody offered him money to try that hard. I guess I was a real disappointment.

Well, thanks for the phone call. My jaw right now starts to swell a little then recedes. I actually had some Ionized Silver just this morning. I know it has kept me around longer than my ticket was paid for. Kind of sad how these Roanoke doctors can get away with purposely failing to treat me all these years. I know William saw my efforts to get assistance. He saw what happened so he didn't even try. He learned from me, didn't waste his time. All his remaining time he spent with his wife and daughter.

And maybe I shouldn't burden you with all this... I made a special webpage recently (Sept. 11 2006) that tells how all this started so long ago, 17 years. Just visit my newpath4 homepage, click on the "com" at the very top. That page tells how all this journey began in 1989. I apologize for the language I used but it was appropriate. I'm trying to hit the Gentry Locke Rakes & Moore lawyers here as hard as I can, and not by squeezing their pinky.

They, my other lawyers, The Virginia Worker's Compensation Board, all managed to work together to paint me in a bad light. It resulted in 17 years worth of Nothing Medical Care, and now because of that hard-hitting & revealing webpage, the truth about what the State of Virginia Worker's Compensation Board does to force injured Virginia Workers to commit suicide is going to be known WORLDWIDE.

I have come to a startling conclusion after running in this doctor gauntlet for 17 years. **I believe the doctors are being used by the State to eliminate anyone they see rocking their Don't-Believe-Anything Boat. So they see me maybe leading people to some fresh water the Government wants to take credit for! In 1989 I figured out how to get at least HALF this country's electricity from lightning.** I Copyrighted them in my "Anti-Synergy: The Story of Project Badwater" {small novel > <http://www.newpath4.com/Badwater.pdf> }, then also submitting the lightning towers idea in to the Dept. of Energy.

What I really accomplished was I put a scarlet letter on my own forehead by telling them what I knew. It has been pretty much downhill ever since I identified myself to them as an "independent inventor". I made both my engines, one in 2003 the next in 2005, plus many other engines before & since.

The government doesn't want a controlled populace to know a religious person is crediting GOD with so many miraculous engines. But it's too late, way too late. I struck fast and the cut was clean and they couldn't stop me. They were so busy starting wars they were too busy to see me til after I had passed. Too late now > <http://forum.signonsandiego.com/showpost.php?p=2209246&postcount=37> .

There wasn't a defense against a modern David. Now they want me to go to a shrink. hahaha Myrna, I'm going alright but no matter what I say, they will do what they have always done > **WRITE DOWN WHAT THEY WANT**. Come October 24, 2006, I walk back into the lion's den to give the Roanoke Virginia doctors yet one more chance.

I guess I should start practicing not to laugh. It appears bipolar. And let's see. If I mention something bad about Dr. Kellam, it looks like I have a "vendetta" and need medication. hahahaha oops. But if I don't say something -and Dr. Kellam has informed the shrink what went down in the background e-mail eh?- then it will look like "I'm hiding something".

It's really a No Win. But I'm in hopes all this infection is going to quiet down, my diet is going to reduce the leg swelling, and I'm going back to work. That's my intention, amazingly the same intention I've had all this time on disability! Had they helped me some... **Oh well. It's all going according to plan. God's Will is being done, on Earth as it is in Heaven. Amen, Amen.**

The United States Government under Presidents George Bush is actively denying medical care to any religious person they deem a threat to national controlled security. I call their program "Passive Genocide". It is also used very effectively against the Blacks of America {through the constant wars that "justifies" their deaths}.

What the U.S. Government does to try and erase any religious cult -or any group it considers to be a Cult- discrediting them through the implementation of pocket psychiatrists, must have been developed & begun some time after the execution & subsequent martyrdom of Martin Luther King.

Quiet extermination of religious folk, Quiet Killing of those the Government fears for their Ideas or Beliefs.

Why? Is there a **COVERUP**? The explanation follows.

....

The background of Woodrow Riley Inventions has been ongoing since 1989. The U.S. Government has taken every possible step short of a bullet to make sure you never hear of my engines. They use their “Department of Energy” to keep cutting edge inventions more important than fancy can openers & hoola hoops out of the American Public Conscious.

[Calling my engines as “God's Engines” brought that even more.](#) The Government perceives me in a class of religious “Leaders” because of my stand for Bible Teachings & Revelations of a promised “new world” through God's Kingdom. When I first showed the D.O.E. how to obtain a large amount of electricity for North America from lightning storm systems in the South {southern U.S. State's “lightning belt” region}, at that time in 1989 I did not call the engine one of “God's Engines” although it certainly was.

Yet they saw the implication & the suppression juggernaut swung into action.

I began writing religious ideas into my websites as bullet protection, making sure everyone {including “them”} understood that my energy inventions were a part of my Ministry. This threw a bolo into their legs by entangling my inventions together with my ministry. That is why you have not seen my website pulled or read my Obituary.

Just because I have new technologies I have not stopped telling about the atrocities being done to American taxpayers & citizens **but especially to her “the Poor” and children**. That too is a part of my personal ministry as is this pdf page. It is my belief that any time someone having or approaching “solid proof” of an Almighty Creator GOD is a threat to the United States New World Economic Government & I have surely brought that to the American World Table.

To which table they never want me or my ideas or my ministry to sit.

You the Reader & investigator can, and will, draw your own conclusions but mine is that American Genocide of any who even APPEAR to be some kind of religious leader {does not follow “mainstream” allowed preaching formats} is going to receive a greatly diminished health care by America's general practitioners & sent to see a shrink.

It is the way they maintain control, it is their chosen control mechanism that accomplishes Quiet Killing, a form of American Genocide done to independent American inventors & religious thinkers.

< next page, my confessions >

I did not want to see it. I turned my eyes aside, hoping I was wrong for 17 years. Only did I gain the strength {adrenalin} in 2006 to realize I had to make these informations known. A lot of folks want to not see it also. Maybe you are one. So I wrote a special page a few months ago just for those who think me to be exaggerating >

<http://www.newpath4.com/getoveritdeathdoctor16stalksroanokevirginiasamatreatingphysicianspatientsresidentsfamilymembers.htm>

**America's governments should be strong enough not to have
a need to suppress its people or the religion they
choose to follow.**

**I followed a river of Life.
Then I was blessed to invent God's Engines.
They are your blessings too.**

Rev. 21: 1-4

Found at: <http://tinyurl.com/qy3g9>

Rev. 21:1 > And I saw a new heaven and a new earth: for the first heaven and the first earth are passed away; and the sea is no more.

Rev. 21:2 > And I saw the holy city, new Jerusalem, coming down out of heaven of God, made ready as a bride adorned for her husband.

Rev. 21:3 > And I heard a great voice out of the throne saying, Behold, the tabernacle of God is with men, and he shall dwell with them, and they shall be his peoples, and God himself shall be with them, `and be' their God:

Rev. 21:4 > and he shall wipe away every tear from their eyes; and death shall be no more; neither shall there be mourning, nor crying, nor pain, any more: the first things are passed away.

No, this planet is not passing away nor being replaced; “earth” here stands for all mankind. Sinful inheritance from Adam is done away with as all god-fearing people are restored to the perfection Adam had before the first couple sinned.

**God's Engines will be there; will you?
Hear a few promises from <http://tinyurl.com/pevju>:**

Isaiah 55:1 > Ho, every one that thirsteth, come ye to the waters, and he that hath no money; come ye, buy, and eat; yea, come, buy wine and milk without money and without price.

Isaiah 55:8 > For my thoughts are not your thoughts, neither are your ways my ways,

saith Jehovah.

Isaiah 55:9 > For as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your thoughts.

Isaiah 55:10 > For as the rain cometh down and the snow from heaven, and returneth not thither, but watereth the earth, and maketh it bring forth and bud, and giveth seed to the sower and bread to the eater;

Isaiah 55:11 > so shall my word be that goeth forth out of my mouth: **it shall not return unto me void**, but **it shall accomplish that which I please**, and it shall prosper in the thing whereto I sent it.

These empty verses represent the new scrolls yet to be written.
