

A personal record 2 for June 28 2008.

Boomerang time for [those who chose to be my enemies](#):

To my ex and first wife:

A lot has been written to my websites about how **Roanoke doctors let us down when it first came to light I had a serious and disabling (broken) back spasms soon after high school.** Little could we have known Satan was planning to repeat the experience over & over for many decades to come... **and yet that turned out to be our "meal".**

I am truly sorry for any and all pains this caused you, my family members & one now deceased. The missing good times we should have had just like anyone else in this U.S.ofA. country feels a right to have a fair chance at having... plus having both undiagnosed bipolar and a thyroid hormone that was chemically incompatible with every cell in my body and brain put me at a serious disadvantage I have only recently these past few years been able to overcome without their "professional help".

Now with 4+ years under my belt taking good nutrition supplements I realize the medicines they did give me were poison to me, rejected as invaders; even the thyroid supplements the **doctors swore up and down "you can't live without" I have lived without for 2 years now,** and I found out that not only had my body rejected it they were triggering my Immune System into **severe over-activity to waste my muscles.**

When I stopped taking Unithroid it was tough for months but then something amazing began to happen. Because I was taking so much nutrition product the major part of the thyroid gland that was **not nuclear burned out in 1990 began regrowing new thyroid tissue** to "pick up the slack" detected by my brain... which is what they should have done in 1990-1991 instead of immediately making me thyroid-supplement-dependent.

These idiot so-called healers & self-proclaimed health "doctors" are so blinded against patients using nutrition they chose to poison me rather than heal me and, with lithium carbonate over-prescribed ~a medical manual no-no of 12 years to boot~ in fact pushed me over the cliff in a lit car **by 2002 was destroying my motor cortex and other brain tissue so much my heart and lungs began to fail.**

Roanoke doctors, including their hospitals that refuse to institute the bloodless surgery now being perfected and appreciated in Pennsylvania's hospital and, in fact, **by cancer and surgical patients all over THE WORLD BUT NOT HERE IN ROANOKE VIRGINIA...** choosing to stay the course like the good braindead Republiclans they are, **they chose to be our enemy, our American terrorists bent on letting your husband, and Dad, die in shame unjustly accused of being lazy when I was ill.**

When they did not put a sign in William's room warning ward visitors not to touch William, and I went around behind him as he was sitting up to give him a shoulder massage, I absorbed his cancer into the palms of both hands that [gave me his cancer two months later](#).. The evidence just continues to mount, evidence that these Roanoke doctors act as the instrument of Satan and it was **MY JOB GIVEN ME BY GOD TO**

SURVIVE THEIR BEST EFFORTS TO KILL ME so that I left standing could expose them and call down holy pronouncements and damnation upon them and their progeny for these **40 years of atrocities toward my family members** ... as well as the hundreds of thousands of Roanokers deprived of modern medical treatments including these **NUTRITION THERAPIES I WAS BLESSED TO DISCOVER OR DIE THAT THEY STILL WITHHOLD FROM ROANOKERS TO THIS DAY**; **They truly are** the damned of all time General Physicians who I asked ~and in fact even begged~ their help to get me back to Work so I could help my family financially although we were divorced, and they could not even diagnose a simple foot problem the surgeon in Williamsburg partly caused that I finally treated successfully in early 2004 w/nutrition after walking crippled & hobbled for 14 years. **And even though I have needed Medical help** many times since, my heart fully coming to a stop 3 times since last Fall '07, I have not called on the wicked they are and continue to be toward me... after 3 anginas 3 weeks apart in January I did not call on them... when recurring congestive heart failure tried to take me these many months from being freon-gassed near to death, I did not call on them... **I refused their centuries-old & ignorant pill-pushing help.**

They refused to help me when I was young and my Family needed me to provide sustenance and covering and healthcare; **what do I need them now for?** Answer: Why nothing, nothing at all **but to "drink" the same hemlock they gave the Riley family** and accept the Justice coming at them from God for interfering with my marriage and the lives of my family. After I found out I had been gassed by a serious freon gas leak (that I had been breathing in my apartment since 2007), and when on May 2 2008 I sat down on the couch that Friday afternoon waiting to die breathing little O2 to reach my heart because of freon displacement, **I still did not call their wretched parsed-out witch doctors for help.** I wish no help from them even on the day I face death I will die with dignity, none of their filth-guilty abortionist hands touching my body.

I can no longer stand their presence with mine.

*** * ***

That pdf file link will travel around this planet and come home to them
til I devastate them into the debased income they left us in,
by God's Will I have done I promise you my family.
They have not devastated us and walked away
unscathed by anyone's yardstick, they
smell reeking to Heaven.

They will now eat of the plate they gave us.
Let the impostors have their meals.
We will find out what they are
made of soon enough.
