

**A Bible prophecy ~Daniel 4:16~ is coming true soon.
Five paragraphs: why I used the word "soon".**

Let us delve deeper than [electricity from lightning](#) or [anti-Gravity flying car-spacecraft homes](#) as in previous recent weeks... to an old Bible Prophecy many people do not know about, written at [Daniel 4:16](#): "Let its heart be changed from that of mankind, let the heart of a beast be given to it, and let seven times pass over it".

Prophecy coming true? Here is how you can know that:

The Heart of the Beast be given it (at-times beastly actions of world's governments) and 7 times (seven) pass over him (Nebuchadnezzar, first event; world governments 2nd, a worldwide antithesis event). This is **~like more than a few Biblical prophecies rather scary sounding~** but once you understand its simple meaning for the Past and also our near Future not scary at all. **Yes, I said jw near.** It's near because I can understand it. God allows certain ones to understand how a prophecy is about to work itself into our Reality (plus preventing others from seeing into his Wisdom ~ astrological seers, "soothsayers" and shamans, religious charlatans) til nearly about to happen. So my understanding of any "Greater Antithesis" application is **significant** since I was not previously educated enough to have figured such things (+ links on top line) out by myself... therefore it must have been given me to tell you, right?

What is government if not a tool for people to help people?, using a kindly, compassionate "**heart of Mankind**" that Daniel 4:16 tells us would be taken away **replaced with a heart of a beast.** What we are really talking about is an evil [incompatible heart transplant operation](#). The Holy Bible is called holy for a reason. Daniel was writing about a heart transplant **thousands of years** (536 BCE => 2008 CE/AD) before Dr. Michael DeBakey or Dr. Christiaan Barnard. Something people tend to forget ~and the reason I decided to write this information to you~ is that a government having the "heart of a beast" is **not entirely a bad thing.** You take a bear, a deer or antelope, lions and elephants, they all have a heart that is much stronger than a man's. **Animals that are also incredibly fast off the starting blocks** like my enginewow ([pic](#)) recently-completed system (links below; + message: [author-responder e-mail](#)).

What we (Mankind and Womankind) need is a world government that is very strong, strong enough to **enforce every law on its books.** Such a gov't needs to **quell any breach of its righteous laws fast.** No government of man we ever had or ever will have that is **#1** that strong nor **#2** that fast and **#3** correct in its Judgements every time it makes a ruling i.e. [God's Kingdom soon to begin ruling over Earth](#) as it [already is in Heaven](#). Soon? **Oh yes, very,** as the 2003 engine I saw how to complete just months ago operates by those very principles: [it has the lion heart of a good beast, SUV strong, bloody-beastly-stock car fast,](#) and [smart](#). So when China finishes buying up **all the World's copper mines** ~American Consumer Alert~ you won't find yourselves **Copper-Wired Electric Hybrid Cars Poor-<>-Stock Market Crash Rich** from your plate-glass-smashing thru a China-owns-most-all-the-copper-by-2010 Detroit auto-maker's corn shucking contest. **My proof of soon** is receiving non-polluting zero-emission small battery desktop fusion engine systems the world's scientists were ignoring on their best Praise-God-for-Nuclear day. **But from God? Well,** I passed out ("slept") thru highschool from an [undiagnosed "rare" thyroid disease keeping me from attending college](#) (God's Will?). Time to start buying up what copper stock you can grab?
