True or False ?

Drilling crude oil from the ground lowers the ground?

Answer:

No. Oil drillers replace the drilled oil with water.

Since when does water replace oil?
Anyone? You better think.

What happens to a grape when you dry it?

My engines do not use crude oil, natural gas or nuke/hydrogen.

My engines do not cause earthquakes from an oil-bled shrunken-head planet.

Corn ethanol fertilizers & pesticides poison your drinking water.

new path 4 from Woodrow Riley has changed the definition of Energy.

Non-destructive energy <> liquid woodstove cars no more.

I make you this promise.

You will be blessed greatly for reading my material.

Or I wouldn't have bothered.

3 engines

1) enginewow <> <http://www.newpath4.com/enginewow.htm>

2) Millennial Dawn Standalone Home Powerlineless Power

[Click here.](#)

3) Fountain of Youth? Health Boost System?

Yep. In 2006 <> Air conditioner cools one room

but heating the other, instead of heating the outdoors.

Go to the one, then the other, & repeat.

< Get off crude oil plus regain health >

Very possibly 3 of the greatest inventions of all time.

Temperature Oscillation <> what it can do for you.

<> Body Strength & Health Information <>

We usually think of the word "oscillation" as radio waves, RF, modulation of electronic signals, that sort of thing. No energy really WANTS to oscillate so Man made radio to make it so.

What if you were to put YOUR BODY through an oscillation ? The result would not be pretty would it ? I recall some of the early 1950's Sci-Fi flicks where humans defeated alien visitors with such oscillations that destroyed them.

Well, it would do the same thing to us too.

Gravity is another energy altogether but it does not oscillate. What happens if you jump up & down on a trampoline ?? Jumping up & down caused "Gravity Oscillation" that is very healthful for us ! Why ?!

Well, it is the SAMENESS that is hurting our Health and the health of all our family members ! Sameness.

In the World we have built for ourselves, our great big wonderful World, we have created temperature sameness. We live, work, play videogames, drive to & from work in heated or air-conditioned cars, striving always to maintain our Comfort Level.

What if you set up a window air conditioner in your basement or between two bedrooms ? One would get cold, the other uncomfortably warm. Walking or wheelchairs from the cold side into the hotter side would set up "Temperature Oscillation" in your body <> exercising every muscle, shivering on the cold side, exercise circulatory & lymph systems on the hotter side, working out every bodily system without exercise.

"Willpower" to get healthy this way comes from the wall socket.

7+ series of pages explaining this system is found on this page > <http://www.newpath4.com/fountainofyouth.htm> with more on setting it up on this page shortcut > <http://tinyurl.com/lzws3> .

Space Travel Keep Healthy System ? Yes. Exactly.
