Where are all the great inventions hiding, and why?

Why is your life bleeding rotten eggs for?

[CloudSeeder knows.](#)

Are you not wowed by all the new inventions on YouTube? Me too! I have made a few myself but have not put them into motion. One was a system for getting electricity to [power America 50% lightning.](#) Yep. Of course I told the “right people” and they told me it wouldn't work **just like they told most of the inventors on YouTube.** I recently this year have designed more than a few Gravity Wheels to power your home. My engine systems are many. I could have had the United States completely off of crude oil 6 [years](#) ago '03 but a lot of unforeseen circumstances kept knocking me out of the running. For a while I thought it was maybe just me they were stopping but then I found hundreds of other inventors who had likewise been stopped and their inventions kept from the world also. Like the Preacher writing Ecclesiastes I have wondered and pondered the purpose how and why any organization would be stopping lifesaving medical advances that can stop cancer and heart diseases. **It isn't rocket science.** The nutritional needs of the human body when not met brings about susceptibility to disease and allows increased damage from stress and everyday living. We have been allowed to enjoy a trickle of new inventions that **did not speed overpopulation of the planet**, such as Super Glue, White Out and numerous others, all of them dangling and luring young up & coming college age new inventors into feeding the gold rush to the Patent Office. I patented a few goodies myself but lost the patents due to lack of funds. **Happens all the time. Who picks up all those dropped patents?** You know someone is storing them. You also know they likely have lots of your tax money too, so why aren't you driving a flying car and flying it to the Moon for the weekend?

**Is all this evidence of a Truth Embargo concerning flying saucers and ufo's, or
Stop “Peace and Security” to block God's Kingdom?**

The answer is in the Holy Bible since the days it was finished being compiled. Paul the apostle told us in the letter to the Thessalonians: if we but listen we can know. He wrote the world would one day begin **proclaiming Peace and Security** on a wide scale. At 1 Thessalonians chapter 5 it reads (vs 2 & 3): “... you know that Jehovah's (God's) day is coming exactly as a thief in the night. Whenever it is that they are saying Peace and Security! then sudden **destruction is to be instantly upon them** as the pang of distress upon a pregnant woman, and **they will by no means escape**”. Pregnant woman means birth of the heavenly kingdom that ends this earthly joy ride. So if you were one of those who **wanted Jesus kept from returning unless breaking that prophecy** wouldn't antiChrist members and atheists **stop all inventions that smacked of Creation's handiwork?** Sure ya would. My Lightning & Gravity & [air+steam car engine](#) and [dry ball waterwheel](#) systems back to 1989 all fit that bill. This artificial timeline we live in having a falsely-continued World Energy Crisis is a result of **FEAR of Jesus Christ of Nazareth, a 2,000 year old dead man.** You think organized religion is bad well, so are non-believers who really believe **Jesus was the Christ and is returning. No Escape.** <> whether you believe in Jesus or you do not.

**You're in it for the duration, with your family,
suffering with the JW Christians in the lion's den [anyway.](#)**
