

Bible writers insisted an "accounting" was coming.

Were they Right?

article by:

Cloudseeder Woodrow Riley 12/12/2008

I have recently made a decision to come out of the closet and reveal my true nature even moreso than ever before. Previously I have stated I am 25% Native American Indian but with this document I am officially telling all comers my Indian name Cloudseeder. I gave it to myself in 2007 after having written so many reams of new inventions and ideas because those inventions and ideas are very refreshing to know.

Cloudseeder means "one who brings the Spring rain".

This new name does not mean I have thrown Bible Scripture away or turned against Bible Truth. Some, perhaps even many, American Indian beliefs are written differently yet embodied and embraced were taken to a higher level by Bible writers; so I possibly could anger the entire Indian Nations by saying that but you see I am not here trying to please everybody, which the Bible writer calls being a "man pleaser" to those people who want to only hear the nice stuff aka "having their ears tickled". I do not write to play games with people or coddle them like babies. I write what needs to be written whether a single person on earth can stand it or not or I do not write at all.

Prior to the new name Cloudseeder I began calling myself in 2004 by the name "**Riley Four Winds**" because I come at my opponents from all sides and unexpected directions as my enemies have discovered. So for good or ill I am now more fully "out of the closet" than ever and I am doing this revelation because I am placing all my cards on the table... unlike my hospital opponents that hide behind reports like this week's "Carilion Clinic Community Benefit Report"... in which the local hospital continues to claim how much good charity work they do when point of fact they take monies from health insurance providers (and highly charged health insurance Payees i.e. families) which all that is is taking money from the group health-possessing patients to pay for their benevolent beneficent philanthropist "Charity". You can bow to them now.

Why do you think hospital administrators at Carilion and their Board of Director Members => James A. Hartley Chairman, J. Alexander Boone, Abney S. Boxley III, Charles E. Carr, George B. Cartledge Jr, David L. Caudill, Warner N. Dalhouse, Ronald C. Evans, Daniel R. Jones MD, Edward G. Murphy MD, Guy E. Murray Jr, Raymond D. Smoot Jr MD, James C. Thompson, James M. Turner Jr, William White Sr & Danielle H. Yarber (as in their 2008 report)... **why do you think** they would take some astronomical amount of money from dire straits hospital funds obtained from dying patients to issue **a Sears Roebuck-quality 13-page mini-catalogue insert** telling the thousands of Roanoke Times newspaper-paying readers how great they are?

Doesn't make sense does it? but Riley Four Winds knows.

Local doctors know how poorly the local doctors inc'g a number of Ear Nose and Throat specialists have let ol' Woodrow M. Riley Jr here swing like a sheet in the wind becoming weather worn as a bullet-riddled and tattered Civil War flag, 20 years needing medical assistance so he could return to the land of the living and have a life back **easily within their doctors+specialists to have done.**

So basically those people have decided, and I will let people know they decided, to try and fool the entire Roanoke Valley and surrounding communities' sick folk they are "**working real hard**" (as our last President was fond of claiming) but all they are doing is attempting to pour whitewash over my grave, the grave they have been trying to force me into since 1990 by doing harm not helping.

Carilion and other doctors in the Roanoke Valley have established a working buddy-buddy with the lawyers, as have many Virginia physicians, to insure **they defeat 95% of malpractice claims ever filed** sort of like one might expect to find in Communist countries or from adherents of Karl Marx. Now why would I drag the Carilion Clinic Board of Directors through Karl Marx? Well, the connection is a perfectly valid assessment; but before I begin listing the reasons for that assessment let me quickly say that this document you are reading is not intended to address just this Carilion Clinic "Community Benefit" and Charity**WeGave** Report. The importance of this doc goes a great deal further than exposing Americans for being "cross-dressing" closet communists. I just need to get this out of the way before rolling to **something much more important than doctors.**

In the United States of America we are supposed to have competition but I have found competition has left the building and been replaced with a wide and pervasive cancer of collusion between medical professionals that goes far beyond anti-trust and monopolies of hospitals as has recently been charged in numerous newspaper accounts... constituting a very productive financial assault against patients for the purpose of stealthily squashing any patient's rightful claim of malpractice. The result has been a profession-wide collusion and collaboration resulting in a very successful military campaign they won against thousands of Virginia's other likewise harmed patients.

Not only have doctors and dentists set up this Maginot Wall to stop malpractice suits they also in Va passed a law -in 1979 I believe- that put a cap on malpractice awards to those few who have their scalps ripped off as happened to a poor unfortunate plant worker in Hollins (near Roanoke). Her paltry settlement was \$1,000,000 for losing her scalp to a machine, money I expect has long since dried up and blown away like wheat chaff in Israel. (Which law btw laid a firm foundation to later deny all Virginian's claims against Big Tobacco). Karl Marx had an underlying hatred of citizens as I recall but if I recall wrong then other dictators have had it and it is that hatred of citizens I have seen in Roanoke doctors and dentists who merrily [chime on along setting the same fees for their services](#), all the time having their buddy-buddy lawyer friends as partners in crimes against humanity... to defraud and shortsheet all patients and clients. No, friends, this goes far beyond antitrust and monopolies. This has become an un-treated shame of all Americans suffering this army of white-coat sporting medical professionals and board members.

But for those of you who may think I am broad-brushing these people I would have you recall from [other of my prior documents](#) that I hold to the beliefs of Jehovah's Witnesses. I am about full transparency and disclosure so let me also reveal that my Mom/Dad could not afford to have me see a dentist for the first time til I was 14 years old. Years ago a Black boy fully employed at United Parcel Service exited the Valley View Theatre -before they moved out of the Mall- after having viewed a Spike Lee movie that featured a vicious and violent white caucasian boy harming Blacks... so this UPS employee came out, saw my white and light complected son and cold cocked my son with absolutely no provocation just because he was there, inflicting great dental damages plus hurt him as he was then as yet undiagnosed to be full diabetic.

No Mall insurance money, no Mall guards protection, no nuthin ever came of it and I imagine the Black man continues making a good living at UPS, but the reason this all has relevance is that my son went to a JW (Witness) dentist who charged top dollar for very expensive dental treatment to we his fellow believers. **Now why was that?** Because even though to my knowledge he is a "good man" he has bought into this way of doing things/system, that's why.

This evil has permeated and [twisted even the righteous among us.](#)

So we come back full circle to the Carilion desperation move report; and while they continue to cry and moan to the Roanoke Times personnel and reporters **claiming how [strapped for money impoverished they are](#)** they have no qualms at all for taking some astronomical amount of monies from patients and health insurance providers to pay their army of lawyers to do their gosh darn best to not pay me even a pittance for the past [20 years](#) of ongoing malpractices committed against me that has reached out and included depriving my family of an income-earning husband and Dad.

I keep looking around for Democracy. I read about it a lot in high school history class and social studies so I rather expected to see it when I graduated William Fleming High School in 1970. But instead I found a corrupted democracy where most everyone goes about their business self-deluded into believing it still exists when it does not. Real democracy as I was taught it has not existed in the U. S. of A. for a number of generations but **mostly since 1949.**

Check your history books. Open your eyes. [Facts do not lie.](#)

Such two men recognized me when they met me as a child when Mom worked as Mgr for them at their very first Holiday Inn. They saw my strong Indian cheekbones & other distinguishing racial marks and knew instinctively their blood was at enemy with my 25% Native American blood. So their people -including now the local doctors I have seen who have "failed" to help me- have in fact been conducting a racial war against me purposely denying me the simple medical treatment they fully knew I needed to get me back on my feet **WHERE THEY DID NOT WANT ME.** They sensed from my blood I was possibly the Cloudseeder they were watching for who would show the world how corrupt their money-based sham democracy is. This war has included their now issuing this Carilion whitewash report in their attempt to bury me under.. which I will show in following pages also includes the other 300000000 of you Genteel new American immigrants who think you have reached your own Promised Land. No.

My Christianity is still my major operating system but they have prompted **Riley Four Winds to blow against their chickenhouse**. But unlike them assaulting me from the dark and shadows, such as issuing this very expensive-to-print and distribute mini-catalogue to [tell people how great they be](#), or how they used their financial influence to force those of the Roanoke Times editorial staff to not print my recent submissions some I made into pictures like the one below to see and read where I explain in full detail why they and their buddy-buddy Medicare and health insurance "provider" companies are discriminating **against & killing millions of obese Americans** by continuing to call needed fat reduction surgeries + incorrectly classifying them out of bounds for paid coverage by using working American's ignorance of **what fat really is thereby enabling them to deny payment for being "excluded cosmetic surgery"**:

Bean Counters At Work <> Move Along

96.1 degrees body temp
= 1 degree over 95 A.H.

What is human fat? Fat is a living storage medium some think just from overeating. Not true.

Fat is also accumulated emergency bloodstream deposits that includes environmental toxins, food preservatives and additives that are non-human material. Fat is an emergency shunt location for tossing trash like DDT, [saving patient's kidneys](#). White fat changes over time to being brown fat that is extremely resistant to weight loss efforts because it is webbed with this non-caloric matter. Many times this [fat triggers people into full diabetes or autoimmune diseases like arthritis](#).

All these toxic poisons locked in waistline fat are released by calorie-restricted diets, a direct injection into the dieter's bloodstream and concentrated poison dump to kidneys. Repeated dieting is deadly. If those poisons were [bulked somewhere less visible](#) than the waistline, hospitals would be forced to treat it for what it really is: [a threat to human life sometimes even benign or pre-cancerous tissue](#).

Doctors and hospitals would have to provide fully paid treatment including liposuction, mesotherapy and reduction surgery not just their money maker by scalpel bariatric, fully covered by Medicare and all healthcare insurance providers. [If they want respect let them step up to the plate](#).

Woodrow Riley **Paid Surgery <> for Poisons not Diets**

Fat is made of many things by the time a person reaches mid-life and baby boomer ages: environmental toxins like DDT, a web of non-caloric matter that **cannot be dieted away that triggers millions into autoimmune diseases**. All of which means hospitals and their physicians should be launching a nationwide surgical intervention campaign to begin reversing both the health care crisis, the Medicare crisis, and the EVERYBODY AND THEIR BROTHER'S WIFE IS DYING FROM YOUR **REFUSAL-TO-HELP-THE-OBESE CRISIS**.

The reason they do not want to pay me for surgical methods I have pioneered is to try and silence my information as having come from **ME**, you know, the stupid American Indian bitch's kid that helped start their motel chain off good because of [her great beauty and service](#) setting the world standard they made their hallmark. They want me silenced so they can make their moves just as **their doctors got mesotherapy off my website** 4/5 years ago and, after "adopting" it as the plagiarist stealing slime **they have chosen to be** no one knows me from Adam even though I copyrighted the page {hahaha that has absolutely no value since the lawyers are their good buddies in crime}.

And that way they also continue along on their hayride humping the suffering of America they keep in ignorance of everything; except me, Riley Four Winds and Cloudseeder. This military 1949's-style campaign has kept me from bringing my non-polluting zero emissions engines to Americans -and to the world- because they have to protect their turf & surf naked party hardy lifestyles they so badly want to never come to an end... no matter what laws they break or who they kill by offing you slowly by denying you **FULLY PAID** abdominoplasty <> **FULLY PAID** liposuction <> **FULLY PAID** mesotherapy that I the inventor of Mesotherapy authorize you to freely have.

You see my friends, by not paying me for inventions, which on the surface to you may sound like this is a ME ME ME plea for help but in reality, fact is that the 1949'ers want you/me living like the rent squatter slaves they believe you **are and always have been**, remaining enslaved & constantly so incredibly upset you are unable to see clearly who your friends are and who your real enemy is and always has been since they invaded oops immigrated to America. Ultimately your enemy is [Satan](#) but we do not have any power over him. Supposedly American Law was to somewhat protect us from all these layers of garbage but as I have shown, democracy has been buried like so many slaughtered Indian babies, replaced by medical professionals **soaking the masses of the bread off th top of their Campbell's uhm-uhm-good soup.**

**So they can easily afford to print and distribute
more greasy newspaper inserts to insist
how squeaky clean they are:
Shellgame Masters**

Is everybody a shellgame master "out to get me" (oooh, take my inventions)? **No, not at all.** In fact, most people have no idea what their synagogue elders are doing to keep them happily oblivious and ignorant and most of all => remain secure and very well fed with lucrative businesses and new business ventures all of which are very seldom allowed to hit red (imagine that). In straight talk: [all the stuff my family was deprived of and excluded from by their actions](#). Those warming their church pews have no idea of anything in this document going on and that is just why they keep giving me the butt end in the face for, no matter how many of my inventions I submitted to the D.O.E. (Dept. of Energy) or Patent Offices or Copyright offices to protect because they control them all. Your not having free electricity from me is all the evidence you need. They trickle them out to you through their people as damage control against me... but also to raise their approved people (young people in colleges and universities "smarter than" the old fat Irish-Indian guy who is oh yeah bipolar).

So you will get my Millennial Dawn and other many engine systems only piecemealed & doled out to you as they figure out [how to slap a tax@pumptax monthly statement to it](#), keeping Americans soaked and otherwise fleeced into the grave where they decided we the interbred scum needed to be since 1949. Am I dancing around the fire good enough? It's the chief in me.

Your pride in being an immigrant or having immigrant roots is a hammer in their hands. The "war" they have been conducting against a Christian inventor is the same war they are executing against you and doing a bloody good job of it too... because while most American scum think the rules are democratic your opponent does not recognize those rules as having any dominion over members of their religion and heritage. **Taking land from sheep is therefore lawful.**

Ya just squeeze everybody so they fall amongst each other armed gangs til they wipe each other's family over into a Karl Marx/Adolph Hitler pile and, why look there, they have your land my inventions. So even if and no matter which American born immigrant or Race you think you are, perhaps even imagining you have "Human Rights", it is alas a great illusion and delusion of the blind. By keeping the terrorists and Yanks continuously locked in an Iraqi death match it only serves their desires to finally take full claim to this land like we took away from the Indians. There is nothing new under the sun: **History repeats itself.**

**You has been's have been
stalked and marked for demolition.**

Which all means the absolute **ONLY HOPE** any of us has to be treated as real human beings is God's Kingdom like Jehovah's Witnesses have been telling you since 1879 as Bible Students, as JW's since 1931, because your nation has not belonged to you since 1949. And by turning us all against each other til our child can be twisted up inside by a **SPIKE LEE STUPID MOVIE** to come out and attack my son or rape your white daughter, when they do eventually take this land all they need tell their church pew faithful followers coming home is what our ancestors told theirs, that the heathen Indians did not deserve such a blessed land, or it was Fate or Destiny or bad karma when in fact what I have blown the whistle on here is a military-level campaign conducted to do to the white man exactly what the white man did to Indian Nation Natives of America incorrectly called "Indians".

I reckon you likely do not appreciate how much they consider us to be putrid interracial intermarried cross-racial inbred American animals; I do because they have given me the full dose of it beginning with my Mom. We are trash to them.

Ah, but I have not identified them have I?

In which case they cannot call me "the name"

they so do like to use against us.

Next page.

The full filename for this pdf document broken down into individual words is: "law of curses culture boomerang coming home white mans insecurity from past treatment of native american indians" but in order for you to understand what that name entails and means I had to first write all of the above. Now your eyes are opened wide to real knowledge of just why your American life sucks rotten eggs all week year after year.

Tell you something I learned long ago: the strongest enemy you will ever come face-to-face with is the one who believes everything he does to you is actually a service he is performing on behalf of his god. The converse of that being terrorists trying to stop an invasion of their land by predominantly anglo-saxon american white caucasian troops, which land the "terrorists" consider to be their holy land, is a therefore totally unwinnable war. They are not Vietnamese.

But to those who know Jehovah's Witnesses to be barred from political discussions I must point out that in none of my writings -as many and voluminous as they are- have I ever attempted to affect any political change. This document here is a Race Alert document telling you to just how deep an extent your country is burning down around your ankles and why, although I leave most of the why to the Watchtower.org website online.

To any who ever thought my writing was in competition with the WTS they are sadly mistaken. My inventing is something they were not prepared mentally, nor physically manned to do, so I was and I took that call.

But I wanted to explain in full detail, full disclosure and all transparency why so many different people such as doctors and now the entire Carilion Hospitals System has chosen to work so hard to keep me completely Checking Account empty. They are simply pawns on this greater Chess board who have no idea what synagogue oops church elders have primary on their agenda to keep fleecing me (and you) as they continue to execute their run on Poland oops Hungary oops France oops Great Britain ie their master plan to delete Gentiles of whatever Race or [blackyellowgreenwhitemauve](#) skin color by turning us all against each other just as they think they can turn me against Carilion Hospital.

...using our lack of communication with each other against us while fully believing I as a JW would never endanger my standing in the Christian congregation by exposing them publicly. **Well, I like public dunkings.** If you had a fuller knowledge of Hebrew oops Old Testament military warfare tactics you would recognize this is similar just expanded up to a world class scale going after the greatest land holdings in the world that btw they fully believe they and no one else deserves **in the name of their God of course so it's all OK.**

So since I see the enemy clearly by pushing all that melting pot rubbish aside, the campaign is pulled out of the shadows from which they have assaulted me **and into God's Glorious Light.** If they want to destroy me now they will have to do it in full daylight not sleazing around hiding in the darkness with Satan. It is true that Bible Prophecy pegs our time as the Last Days and End Times and that is correct but before Jehovah brings Armageddon by letting His son ride some key individuals have decided to bring their own version first. Pray harder.

And yet, hmm, perhaps I should rethink my conclusions that Carilion is just a pawn on the Chess board after reading the December 14 2008 Roanoke Times Virginia Front Page newspaper article: "Economy Won't Halt Carilion". Says here Carilion Hospital investment portfolio is \$752,400,000.00 for the year ending September 30, 2007. According to their own internal auditing system having only dropped 23% while the Dow Jones Industrial Average plummeted 33.4% in the same recent period of time and the Standard & Poor's 500 index was even a worse drop of 39% (percent).

Why whewie Olivia Newton-John!; **Carilion Hospital System is no pawn on this Chess board at all**; they own the board lock stock-&-barrel of pirhana. They seem to be rolling in doughboy bakery products. Let's read this newspaper article a little more. Hmm. CEO President Edward G. Murphy of Carilion states gleefully and wit much pride of the newly designed website launch just last week Dec. 01-Dec. 07 2008, and on that spanking baby new site admits to a total Carilion 2008 revenue of \$2.48Billion (i.e. \$2,480,000,000.00) during Fiscal Year 2008... which represents an increase of 25% percent over 2006 followed by an 18% percent cake+icing+on+top of fiscal year 2007. Yowwiee Batman! They only paid out \$703,600,000.00 (\$703.6Million) for contractual allowances; so that must be their hired help employee costs.

Carilion CEO Ed Murphy is brimming with a Confident Attitude

"For years Carilion has attributed its financial health to the strength of its many [lucrative] investment strategies" and "Now we are in the process of making [even more] significant investments", says Murphy. [Yowsa Yowza Yowzah Mastah Murphy sir youz'a dun het da jackpot uh alz timez theah brutha Br'er Fox in all Heav'ns glory.](#) Let's see now. The entire United States of America is going down the financial sliding board headed for h^ll on a greased skateboard but Carilion is somehow planning ahead to spend more money. On what? Surely not paying any malpractice monies. Here's some puke to read from Ed Murphy => "Murphy said he is [confident Carilion has the financial resources to \[more than\] successfully complete the transition-related improvements that are being made...](#) including development of the new 250,000-square-foot physician+clinic building under construction now."

Okay, that's great for Carilion that they have lots of money. I'm happy for their financial prosperity during a Depression oops Recession. Carilion is prospering gangbusters in Virginia so how are other of this nation's hospitals doing? => "The AHA report based on an October survey of 736 random sample of hospitals around the country strongly indicates & suggests fully 56%percent of them are reconsidering/postponing allcapital expenditures for new facilities & renovating."

CONFIDENCE -CONFIDENCE- CONFIDENCE

Murphy's peer group of hospitals are flushing down the Recession [toilet and his is taking a bath in Dom Perrier champagne?](#) Wow golly gee, anyone smell a rat but me? I guess not paying me a malpractice settlement or other people's claims is a good way to make a living, especially if you are a Monopoly burning every page of Anti-Trust legislation passed in the last 85 years. Maybe I need to bone up on Federal Law after all. Genghis Khan, eat yer heart out, & Napoleon.

**And I'm only 25% Native American!
I'm 75% white caucasian irish do ya heah?
You can't do that to me! I'm one of yours amigo
mi compadre su esta American yank!**

After a while of studying this Chess board from h^ll that has been keeping me from getting any of my natural energy engines off the ground it occurs to me the Chess board must be a lot bigger than I thought. It looks like I have grossly under-estimated the situation by perceiving this to be a two player game. The Petroleum & Natural Gas companies like Exxon-Mobil and Shell want the Indians to die so all the reservation land holdings come up for grabs since we're all outta "[natural resources](#)". Then the Recession-starved American gov't "in order to form a more perfect union" passes a new law that "for the good of We the People" declares open groundhog day and deer-hunting season on Indian Land to have more crude oil and NRG that is "our only Hope" to save us out of this

**recession/depression/disaster+movie.
Where th heck is Pierce Brosnan when ya need one?**

All my natural energy and imitation energy engine systems and [lightning towers inducted-magnetism-from-lightning pole electricity system of 1989](#) would have made the Native American Indigenous Peoples wealthy. I believe I fully understand my opponents now. Next time I should research land grabs and Ponzi schemes and [delve deeper into the history of white caucasian aggression against minorities that don't live in Chicago](#). Maybe do a Google camera shot see how many people over in India are still using canes after being blinded from the Union Carbide gas disaster. This is obviously a well-defined conspiracy of money hungry U.S. corporations to assume control of Iraqi soil oops I mean Native American soil.

Hmm. Maybe the Pope will intercede for & help the American Indians. I hear the Catholic missionaries did a really slamming job once, along with the Protestants the Mormons and Episopalian holy rollers screaming Jesus will save you... right before they [forced the Native children to read a Bible their way or the highway](#).
